

**NEW!**

# Kestrel LED Illuminator

Long-life LED ringlight illumination for all Kestrel measuring microscopes

The NEW long-life LED ringlight for Kestrel measuring systems incorporates the latest LED technology to provide bright, white illumination for superior definition of component features for up to 10,000 hours.

### Key benefits include:

- Significantly reduced energy, consumable and maintenance costs.
- Over 10,000 hours of continuous viewing.
- Increased definition for enhanced contrast of component features.

At a fraction of the running costs of conventional halogen illumination, LEDs are economical alternatives to illuminating your components for inspection and measurement.

Designed specifically for Kestrel measuring microscopes, the new 8-point LED ringlight can be fitted quickly and easily, to provide enhanced image clarity, with significantly reduced running costs and maintenance time.

### Ordering Information

Part Number	Description
K-030	8-point LED ringlight illuminator with PSU controller.

Technical Data	
8 high intensity LEDs with custom design aspheric lenses	
Input voltage 100-240VAC 50/60Hz 0.9A Max	
> 280,000 LUX at maximum intensity	10,000 hours

Vision Engineering manufactures a comprehensive range of ergonomic stand-alone mono and stereo microscopes as well as a complete line of non-contact measuring systems.
